Diseases And Disorders A Nursing

Abstract. A sedentary lifestyle is a very serious worldwide problem, especially in North America and Europe. Unfortunately, physical inactivity, which has progressively increased over the past several decades, significantly increases the risk of numerous diseases/disorders, including several forms of cancer, diabetes, hypertension, coronary and cerebrovascular diseases, overweight/obesity, and ...

Physical Inactivity: Associated Diseases and Disorders

Anxiety is a vague feeling of dread or apprehension (uneasiness); it is the activation of the autonomic nervous system in response to an external or internal stimuli that can have behavioral, emotional, cognitive, and physical symptoms. In contrast, fear is the feeling of apprehension over a specific threat or danger to the person. Anxiety disorders comprise a group of conditions that share a ...
