Legal research is "the process of identifying and retrieving information necessary to support legal decision-making. In its broadest sense, legal research includes each step of a course of action that begins with an analysis of the facts of a problem and concludes with the application and communication of the results of the investigation."

Legal research - Wikipedia
Use the tabs to find legal literature by type or jurisdiction. Most of these pages are about sources - they are annotated lists of indexes and full-text databases, print sources and other useful things. My aim is to guide you through your options, much as I talk you through them in a class, or if you come to see me.
